YUNIS ASLANOV

Frontend Developer
Baku, Azerbaijan | +994 50 975 8292 | yunisaslan.dev@gmail.com | https://github.com/YunisAslan

PROFESSIONAL SUMMARY

Frontend Developer specializing in React, TypeScript, and Next.js, focused on building scalable and performant web applications. Skilled in developing complex CRUD systems, interactive dashboards, and map-based features with a user-centric approach.

TECHNICAL SKILLS

Frontend: HTML5, CSS3/SCSS, JavaScript (ES6+), TypeScript, React.js, Next.js, ContextAPI, Redux Toolkit, Zustand, React Query, React Hook, Formik, Yup, Zod, Tailwind CSS, Material UI, Shadcn UI, Ant Design, DevExtreme

Backend: REST API, Firebase, Node.js, Express.js

Other: Git, GitHub, Jira, YouTrack, Bitbucket, GitLab, CI/CD, Figma, Map APIs (Leaflet/Google Maps)

PROFESSIONAL EXPERIENCE

Frontend Developer | Ministry of Ecology and Natural Resources | Baku | January 2025 – Present

- Build reusable component library ensuring consistent design language across multiple projects.
- Optimize UI performance for handling large datasets through virtualization, lazy loading, and pagination.
- Implement advanced UI components including custom data tables, filters, and interactive dashboards.
- Took initiative in spotting and resolving frontend bugs during implementation and review stages, contributing to more stable releases and reduced QA feedback cycles.

Frontend Developer | VABISS | Baku | January 2024 – November 2024

- Worked with software developers and testers to design and develop robust solutions that meet client requirements for functionality, scalability, and performance.
- Engaged in project development using the Agile Kanban methodology, leveraging Jira for efficient collaboration and iterative progress toward goals.
- Collaborated on the development and maintenance of SaaS and GRC applications, contributing to secure, scalable, and user-friendly interfaces that enhance functionality and usability.
- Transformed Figma designs into user interfaces, ensuring accurate implementation, seamless integration, and responsive design.

Frontend Developer | In4Tech | Baku | August 2023 – November 2023

- Developed a LinkedIn-style professional networking platform, focusing on user profiles, connection feeds, and interactive social features.
- Worked within a PHP Laravel MVC environment, collaborating with backend developers to integrate frontend logic with server-side templates (Blade).
- Collaborated closely with UI/UX designers to ensure high-fidelity implementation of designs and a seamless user journey.

Frontend Developer | Freelance | March 2023 – August 2023

- Developed a comprehensive Admin Dashboard featuring complex data visualization through interactive charts and graphs.
- Implemented secure Authentication and Authorization flows to ensure protected access to administrative data.
- Translated high-fidelity Figma designs into pixel-perfect, responsive web pages using modern CSS frameworks.

EDUCATION

Bachelor of Information Technologies | Azerbaijan Technical University | 2021 – 2025
